Cuba is the only country in the world where American and Soviet cars together crowd the streets of the cities and rural roads. Whereas Detroit's dinosaurs symbolize Cuba's American past, the Soviet cars are a reminder of the USSR's close link to Cuba. The LADA played and still plays an important role as a workhorse of the Cuban revolution. It is used as taxi, police car and vehicle of government institutions. The Soviet cars in Cuba outnumber their US counterparts two to one.
